

PROGRAM

51st INTERNATIONAL SYMPOSIUM OF
PEDIATRIC SURGERY
04.–07. 02. 2024 in Obergurgl, Tirol, AUT

Main Topics: Fast Track Concepts | Artificial Intelligence / Helpful Tools
Old Habits Die Hard | From Bench to Bedside / Case Reports

WELCOME TO OBERGURGL

Congress Language: English | Organisation: Medical University of Vienna, University Clinic for Pediatric Surgery, Prof. Martin Metzelder & Dr. Christiane Wischin / Co-organizer: Micha Bahr (Ingolstadt)
Congress Location: Universitätszentrum Oberurgl, Gaisbergweg 5, 6456 Oberurgl, Austria
Congress Website: www.isps-obergurgl.org

Approved for 16 DFP-Points (European CME Credit)

Sunday, 4th February
8.30 to 10.00 p.m.

“GET-TOGETHER” for Early Birds

Kaminzimmer (Universitätszentrum Oberurgl)

Monday, 5th February
8.00 to 12.00 a.m.

Chair: Häcker F.M, Tonnhofer U.

Fast Track Concepts

Fast track concepts in pediatric urology	20' + 5' (Tonnhofer U., Vienna)
Fast track concepts in pectus surgery – the role of cryoablation	20' + 5' (Häcker F. M., St. Gallen)
Non-operative treatment of acute appendicitis supported by a telemedicine application to increase patient's safety	20' + 5' (Wiener C., Vienna)
Fast track protocol for minimal invasive repair of pectus excavatum and carinatum with cryoanalgesia	20' + 5' (Rohleder S., Mainz)

COFFEE BREAK 30'

Miscellaneous I

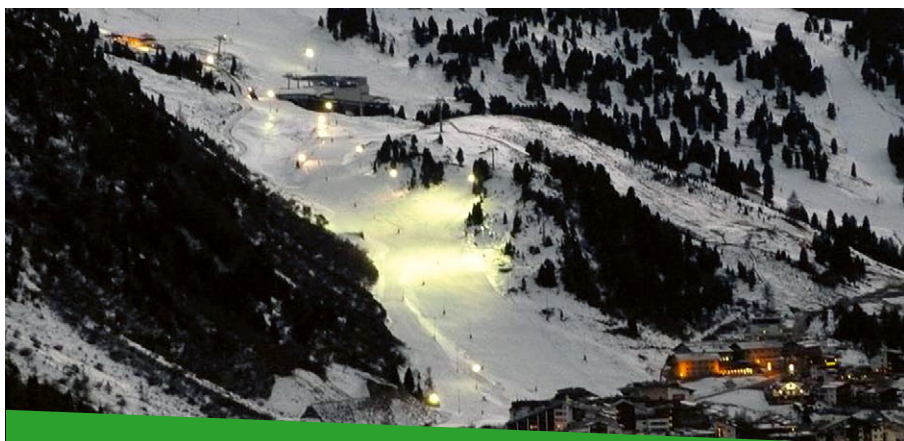

Revolutionizing Pediatric thoracic surgery: the innovative Cross Bar/Short-Bar technique for entire chest wall remodeling in children	15' + 5' (Weinhandl A., Vienna)
Mastering complexity: the sandwich technique for asymmetric pectus carinatum and the excavatum/carinatum complex	15' + 5' (Weinhandl A., Vienna)
Percutaneous Bleomycin electrosclectherapy in the treatment of periph I low-flow venous malformations – a new way to go for a problematic issue?	10' + 3' (Schleef J., Trieste)
Beyond the scalpel: why clinical psychology in pediatric surgery matters	20' + 5' (Spielmann K., Vienna)

MON
PM

3.30 p.m. COFFEE BREAK 30'

Monday, 5th February
4.00 to 6.00 p.m.*Chair: Gödeke J., Krebs T. F.***Artificial Intelligence / Helpful Tools**

A new baby or a childish tool? Artificial intelligence in pediatrics from an ethical perspective	20' + 5' (Beisbart C., Bern)
Pediatric surgery 4.0 and 5.0 - an important challenge that we must face for the next decades	20' + 5' (Gödeke J., Munich)
Artificial intelligence from the perspective of pediatric radiology	20' + 5' (Patsch J., Vienna)
Prediction of neonatal outcome using fetal MRI radiomics of the lung	20' + 5' (Watznböck M., Vienna)
Fetal MRI diaphragmatic-defect ratio as a prenatal prognostic index in congenital diaphragmatic hernia	10' + 3' (Pagliara C., Trieste)
Prenatal MRI sequencing for congenital defects – CDH and Gastroschisis	10' + 3' (Sezen P., Vienna)

7.00 to 10.00 p.m.: SKIING BY NIGHTTUE
AM**Tuesday, 6th February**
8.00 to 12.00 a.m.*Chair: Codrich D., De Jong J.***Old Habits Die Hard**

Old habits and new rites in NEC surgery	20' + 5' (Berger S., Bern)
Old habits die hard: Appendicitis. Becoming a better surgeon? Know when not to operate!	20' + 5' (De Jong J., Amsterdam)
Old habits die hard – the basics of change management	20' + 5' (Tural S., Magdeburg)
Old Habits – new trends/effective treatment of chest wall deformities	20' + 5' (Häcker F. M., St. Gallen)

COFFEE BREAK 30'**Miscellaneous II / Case Reports**

Perianal problems in Childhood	20' + 5' (De Jong J., Amsterdam)
Pediatric spontaneous pneumothorax (PSP): is there something new we need to know?	15' + 5' (Codrich D., Trieste)
News from the robotic front	20' + 5' (Muensterer O., Munich)
Update robotics in pediatric surgery	20' + 5' (Krebs T. F., St. Gallen)

TUE
PM

15.30 p.m. COFFEE BREAK 30'

Tuesday, 6th February
4.00 to 8.00 p.m.*Chair: Muensterer O., Singer G.***From Bench to Bedside / Case Reports**

A Viennese potpourri of regional anesthesia for pediatric surgery	20' + 5' (Opfermann P., Vienna)
Advanced laparoscopic procedures for ELBW infants with a body weight of 490 to 930 grams	20' + 5' (Tural S., Magdeburg)
Metabolomic alterations of volatile organic compounds and bile acids as biomarkers of microbial shifts in a murine model of short bowel syndrome	20' + 5' (Singer G., Graz)
From Bench to Bedside: The influence of the tumor microenvironment on response to therapy and relapse in pediatric solid tumors – 3D cell culture method examples for Wilms tumor	20' + 5' (Sorger H., Vienna)
Oesophageal atresia in the modern era	20' + 5' (Oomen M., Amsterdam)
A giant cystic ovarian tumor – one case of mucinoid borderline tumor in a 16 year old girl	10' + 3' (Schwarzmeier, T., Ingolstadt)
Diverging from the conventional treatment approach: a case report on a 6-year-old child with upside-down stomach	10' + 3' (Rück S., Vienna)
Handling and review of conjoined siblings	10' + 3' (Reinshagen K., Hamburg)
Acquired right-sided diaphragmatic hernia after pediatric split-liver living donor transplant: a guide for the non-transplant pediatric surgeon	10' + 3' (Stundner-Ladenhauf H., Innsbruck)
Laparoscopic approach for giant paratubal cysts in girls	15' + 5' (Nyiredi A., Magdeburg)

Closing of the Symposium / Closing Remarks**Farewell****8.00 to 10.00 p.m.: SNOWBAR****THANK YOU
FOR YOUR SUPPORT!**

52nd INTERNATIONAL SYMPOSIUM OF

PEDIATRIC SURGERY

19.–22. 01. 2025 in Obergurgl, Tirol, AUT

THANK YOU FOR YOUR
PARTICIPATION

SEE YOU NEXT YEAR
